BELGIAN TROOPS ENTER BRUSSELS; HUNS GET OUT

Since August, 1914, City Has Been in the Hands of the Germans

Paris, November 16.—Belgian advance guards entered Brussels Saturday morning. The German troops in accordance with the armistice began moving out of the Belgian capital Friday and now are nine miles away, according to the correspondent of the Midi, on the Belgian front.

Brussels has been in German hands since August 20, 1914. When it became evident that the Liege forts could not hold out the Belgian capital was evacuated. King Albert, the government, and most of the army retiring westward. Some of the Belgian forces retired to Antwerp which was defended stoutly by Belgian and British troops before it fell. In their occupation of Belgium the Germans maintained their principal headquarters at Brussels.

HAIL REPUBLIC OF CZECHO-SLOVAKS

Berne, Switzerland, November 16.—(5:05 a. m.)—The Czecho-Slovak republic was proclaimed yesterday by the National Assembly and Professor T. G. Masaryk was elected president, according to an official dispatch from Prague.

AT BADEN BADEN

(Associated Press Cable) Basel, Switzerland, November 16.—Prince Maximilian of Baden, former German chancellor, has arrived at Baden-Baden with his family. It is said that he will make a long stay there.

DR. SOLF HAS A NEW OBJECTION

Now Pleads for the Germans in Turkey to Assist in Hospitals and Relief Work

(By Associated Press Cable) London, November 15.—Dr. Solf, the German foreign secretary, according to a German wireless message, has sent to Secretary Lansing a note referring to the articles in the Anglo-Turkish armistice, requiring German civilians to leave the Turkish empire immediately, and declaring a literal fulfillment of the article "must cause severe hardships, especially to poor peoples and appears unreasonable after the conclusion of a universal armistice."

Dr. Solf says German hospitals and asylums for the blind and orphans, the orphan asylum caring principally for Armenian children, would be compelled to close, thus causing new suffering among the Christian population. The German government, he adds, requests that President Wilson intervene in favor of these German civilians being permitted to remain in Turkey.

SHOE SCHEDULES ARE ABANDONED

(Associated Press Dispatch) Washington, November 16.—Abandonment of the recently adopted shoe schedules which provided for classification of grades and fixed prices ranging from \$3 to \$12 was announced today by the War Industries Board. Conservation features of the program which was agreed to by the industry will continue in force.

COLUMBUS AVIATOR WAS HELD PRISONER

(By Associated Press Dispatch) Columbus, O., November 16.—Lieutenant Walter Avery, Columbus aviator who is reported officially as having brought down three German airplanes, is a prisoner of war at Camp Zwickau, Germany, according to official notification from the War Department, received today by his parents, Mr. and Mrs. P. E. Avery. Young Avery was reported missing October 3.

NEXT FEW WEEKS WILL TELL THE STORY IN GERMAN CRISIS

(By Associated Press Cable) Berne, November 16.—If the new German Government can carry on its work for six or eight weeks the future of new Germany is assured, declared Chancellor Ebert in a speech in Berlin Thursday. "If we can carry out our work for six or eight weeks new Germany's future is assured," said Chancellor Ebert, "and we also can hope to obtain conditions of peace relatively favorable, but if our adversaries can establish an anarchal reign among us they can bring about conditions that will annihilate Germany's political life."

GERMANS LOOK TO AMERICANS

(By Associated Press Cable) Berlin, (by wireless to London, 1:05 p. m.)—Foreign Secretary Solf has sent a message to Secretary Lansing urgently requesting President Wilson to give permission for a German commission to immediately leave Germany for the United States so as to personally lay before the American government the conditions existing here and to assure the taking of steps to purchase food stuffs.

ERZBERGER TOO

(By Associated Press Cable) Berlin, (by wireless to London, 4:32 p. m.) November 16.—Mathias Erzberger, chief of the German armistice delegation will conduct the preliminaries of the peace negotiations in conjunction with the foreign office.

BOYS OF THE FAMOUS FIGHTING SHOCK TROOPS TO BE, ON ACCOUNT OF EXTRAORDINARY SERVICES, GIVEN SPECIAL CONSIDERATION IN THE WORK OF DEMOBILIZING OVERSEAS FORCES.

1,790,000 MEN NOW LOCATED IN ARMY CAMPS RETURN TO THEIR HOMES IN NEAR FUTURE

Cantonments and Army Camps Will be Made Ready For the Reception of Troops Now Overseas, So That Work of Demobilization May be Carried Forward.

WASHINGTON, November 16.—(Associated Press Dispatch)—Orders have been issued, General March announced today, for the gradual demobilization of all troops now in this country. The demobilization will be in this order:

First—Development battalions, 71 in number and comprising 98,100 men; second—conscientious objectors not under arrest; third—spruce divisions; fourth—central training schools for officers with some modifications; fifth—U. S. guards now numbering 135,000 men; sixth—railway units; seventh—depot brigades; eighth—replacement units; ninth—combat divisions.

There are now in the United States 1,790,000 men under arms, General March said. Orders which will result in the immediate demobilization of 200,000 men are already issued and these men will reach home within two weeks.

DEMOBILIZATION OF OVERSEAS FORCE

Regarding the return of troops in France, General March said the order in which the divisions will be withdrawn will be left to General Pershing. It is the intention of the War Department, however, so far as practicable, to return each division to the locality from which the majority of its men came, and to parade the divisions in adjacent cities so the people may have a chance to give a fitting welcome.

Orders have been cabled to Pershing to begin the return at once of all casuals. Sick and wounded who can be moved and convalescents. A steady stream of these men should begin immediately to cross the Atlantic.

SPECIAL FOR RAINBOW DIVISION

Because of its unusual position General March said, and its brilliant record at the front, the "Rainbow Division" will be given special consideration in the demobilization plan.

The purpose of the department was not outlined specifically but the impression was given that the division will be paraded in Washington before being mustered out.

CLEARING THE CAMPS AT HOME

Camps at home will be cleared out to prepare for the return of the Expeditionary Forces and he indicated the process would be expedited. A unit of regular troops will be left at the camps to prepare it for arrival of the overseas units, he said.

SOME DETAILS OF PLANS

Steps already have been taken toward the organization of the permanent army. All men now in the army have been or will be offered an honorable discharge for the emergency enlistment and an immediate re-enlistment in the new forces. A furlough of one month will be given as an incentive to re-enlistment.

It was announced that Congress will be asked to give each man discharged from the army, regardless of whether he re-enlists, a bonus of one month's salary. He pointed out also that all soldiers are entitled under the law to wear their uniforms three months after discharge. This will make less difficult the task of supplying civilian clothing to the demobilized army.

TO REPRESENT U. S. AT PEACE CONFERENCE

Three prominent Americans, Secretary of State Lansing, Elihu Root and Justice Louis D. Brandeis, who are being mentioned in official circles at Washington as the representatives of the United States at the coming peace conference, President Wilson, according to a report for the Capital, may go to Europe as head of the American delegation if the country at large seems to express itself in unmistakable terms in favor of his going. If the President does not go, Secretary Lansing, because of his knowledge of European affairs, will in all probability be appointed head of the mission. Colonel E. M. House will undoubtedly act in the capacity of unofficial adviser to the delegation.

THOUSANDS WILL QUIT SHERMAN IN SHORT TIME

Orders Received at Chillicothe Cantonment to Muster Out 10,000 or 12,000 Men at Once

(By Associated Press Dispatch)

CAMP SHERMAN, November 16.—Orders received here today from the war department will mean the immediate discharge of approximately 10,000 men of the 158th Depot Brigade.

The number of training battalions will be cut from 12 to 4, three white and one negro. Announcement was made that all camp organizations would be completed and retained indefinitely. General Smith, camp command-

ant, today urged the men in Camp Sherman to keep up the morale of the camp which he declares has been the best of any camp in this country since the signing of the armistice.

Announcement also was made that recommendations for emergency appointments and promotions are suspended until further notice.

CREW REFUSES TO SURRENDER TO REVOLTERS

German Warship Wies-Baden Makes a Dash for Neutral Waters but is Torpedoed

(By Associated Press Cable)

Berne, November 16.—The German warship Wiesbaden refused to surrender to the revolutionists and tried to escape to neutral waters. It was pursued and torpedoed by revolutionary battleships and the entire crew of 330 men, including many cadets perished, according to the Lokal Anzeiger, of Berlin.

The Wiesbaden which is mentioned in the foregoing dispatch, was supposed to have been sunk during the Jutland battle, May 31 and June 1, 1916. She was a light cruiser of 4,900 tons and was built in 1914.

**KILLS HORN OWL
IN THIS COUNTY**

A large Horn or "hoot" owl which had been making frequent visits to the chicken roosts and pigeon roosts at the A. F. Hopkins residence this city, was shot one day this week, and was Friday exhibited by Mr. Hopkins.

Because of his unusual ability to describe what he saw and experienced in the war zone, and in fact that he was the first American Y. M. C. A. worker to pass through the shattered Hindenburg line, his story will be a most absorbing one.

Mr. Baker has previously indicated that the fundamental desire of the war department is mustering out the army would be to release first class men who had been longest in service and the first in action. In that event it is expected that the First and Second (regular) Divisions and the Twenty-sixth (New England), Forty-second (Rainbow) and Forty-first (Sunset) National Guard Divisions would be the first to be sent home.

The Restoration of Order

The news of the crushing of the Bolshevik movement in Switzerland, calling off the general strike order among workmen and the restoration of order in the little republic which is nestled among the peaks of the Alps is hailed with welcome acclaim by the world.

For some reason we have always regarded the quiet and peaceful, but determined, Swiss people as among the most dependable, and the news of disorder in that nation gave no little uneasiness because it presaged a dangerous spread of the monster of anarchy.

None of us can regard conditions in Russia, Germany and Austria as other than alarming.

Should Bolshevism obtain a strong foothold in what was once the Central empires and join hands, before order can be restored in Russia, with the ultra-radicals gone mad and drunk with power and bring under its dangerous influence the more than three hundred millions of people who have but lately won their freedom, the results are awful to contemplate.

It is the first duty of the hour, even from a true appreciation of our own well being, to say nothing of the humane impulse, to assist in every way in bringing order to the distracted peoples of Europe with as little delay as possible.

It required two decades and more for Europe to absorb the results and the effects of the French revolution and the disturbances in government wrought at that time involved only a few people and a small area in comparison to the present upheaval.

While autocracy and despotism in government have been overthrown and crushed, the menace of ultra-radicalism, run riot, is scarcely less grave.

Each day that chaos reigns the menace grows. The armies of the allies have a tremendous task facing them in keeping the disturbances confined to their present territorial limits and in assisting our late enemies as much as possible in finding their way out of the bewildering morass of confusion in which they are now wandering.

Revealing Secrets

The first one of America's many military secrets has been given to the public—the perfection and the use of the radio-telephone by American and allied aviators.

So closely was this great secret guarded that home folks knew nothing of what was being done and even the enemy, on the field of battle, did not realize, until just before hostilities ceased, that the allied airmen were operating under some especial advantage.

Now that the cloak of secrecy, which the very necessary censorship strictly observed although it was voluntary, has lifted American people are looking forward confidently to startlingly interesting revelations of masterly achievements resulting from the inventive genius and the initiative possessed by the people of the allied nations.

We are all anxious to know just how the submarine was mastered, how knowledge of many astounding state secrets was obtained, what this or that noted genius accomplished in the great work to which he was assigned, some of the real "thrillers" performed by our secret service men and a host of other facts which will make great reading these winter evenings of peace time as we gather round the home fireside to go over again the times of war.

It is not likely though, that even the "half" can be told of all the wonderful things our men of brains and our heroic boys of brawn accomplished in the laboratories and workshops and on the field of battle.

Clear Seas

With the seas freed of pirates and the immense ship tonnage of the world relieved from the burden of transporting troops and munitions of war, wheat, wool, cotton and other essential raw materials for food and clothing can now be transported to the market places, measurably lightening the restrictions under which we have been laboring, patriotically, for many months.

Opening the Mediterranean Sea permits the great store houses of the East to enter, once more, the markets of Europe and relieves, to that extent, the strain on the United States.

Australia with her "mountains" of wheat and five clippings of wool can now rush her cargoes over seas to suffering humanity.

Argentina, Brazil and other South American nations can now rush to market the foodstuffs which have so long been shut up in their store houses.

With commerce on the high seas resuming its normal trend much of the menace of food shortage will disappear.

POEM FOR TODAY

THE HEROIC AGE

He speaks not well who doth his time deplore,
Naming it new and little and obscure
Ignoble and unfit for lofty deeds.
All times were modern in the time of them,
And this no more than others. Do thy part
Here in the living day, as did the great
Who made old days immortal! So shall men,
Gazing long back to this far-coming hour,
Say: "Then the time when men were truly men;
Though wars grew less their spirit met the test
Of new conditions; conquering civic wrong;
Saving the state anew by virtuous lives;
Guarding the country's honor as their own,
And their own as their country's and their sons';
Defying leagued fraud with single truth;
Not fearing loss, and daring to be pure,
When error through the land raged like a pest,
They calmed the madness caught from mind to mind
By wisdom drawn from old, and counsel sane;
And as the martyrs of the ancient world
Gave Death for man, so nobly gave they life;
Those the great days, and that the heroic age."
—Richard Watson Gilder.

"IT'S ABOUT TIME TO COME HOME, WILLIAM"

TAX COLLECTIONS TO BE AROUND EIGHT BILLIONS

By Associated Press Dispatch.

Washington, November 16.—The same spirit of enthusiasm and co-operation which attended the Fourth Liberty Loan and much the same methods, including advertising in the newspapers and local propaganda campaigns, are planned as features of the nation's next great financial task, the collection of about \$8,000,000,000 in taxes next year.

Internal Revenue Commissioner Pomeroy is making preparations for a great drive in January and February to get the ten million persons who probably will be subject directly to government taxes to file their returns early, accurately and willingly.

"Even with our great tax gathering machinery already built up in collection districts throughout the country," said Commissioner Pomeroy, "we cannot gather \$8,000,000,000 of taxes without the hearty co-operation of the people who pay. It must and will be their job as much as that of the government authorities."

On this principle, a great educational movement is being planned, without waiting for Congress to enact finally the revenue bill which will determine just how much tax is to be collected, and from what sources it is to come. Business men in every community, banks, chambers of commerce, trade farmers' and labor organizations, churches, lodges, schools, and other organizations will be asked to undertake to show citizens precisely how to figure taxes, what deductions from income are permissible, how their business records should be kept to provide the best guides for tax reports, and how to make intelligent returns, giving neither less nor more than is expected under the law.

By such a system, officials hope to minimize tax evasions. But to guard against the inevitable slacking, information will be sought through these channels to be used in checking up returns and ascertaining beyond a doubt when returns are true.

UNUSUAL ACCIDENT NEAR EAST MONROE

Cyrus Swift, residing near East Monroe was very badly injured in an unusual manner, one day this week, when he was knocked from a load of fodder by an automobile driven by Frank Stokes, and his jaw fractured and several teeth loosened, besides suffering painful cuts and bruises.

Swift was hauling fodder to a shredder and it was necessary to cross the highway to reach the shredder and it was necessary to way and halted a moment until another man closed the gate behind him. Stokes, approaching in an automobile, expected Swift to drive directly across the highway instead of blocking it by halting, and when he did not, the automobile struck the wagon, hurling Swift to the roadway and he alighted on his head and shoulders.

In This Billion Dollar Vault Are Handled All Liberty Bonds Sold In This District

MENTION of huge sums of money does not give us the thrill it once did before we got used to mouthing the totals of war loans and war expenses.

But when you actually stand in a little room about 12 feet wide and 20 feet deep and are told that it normally contains a round billion of dollars in Uncle Sam's best currency and securities, the old thrill is bound to take hold of you.

Above is denoted the "billion dollar vault" in the basement of the Federal Reserve Bank of Cleveland, where Liberty Bonds, you who live in the Fourth Federal Reserve district, have been in that vault. And these men handled them before they went to you.

The three men shown are W. A. Kleeb, auditor of the Liberty Loan Department of the bank; D. B. Clouser, custodian of securities, and C. H. Griffith, assistant auditor of the Liberty Loan Department. They are checking

over bonds of the Fourth Loan which are about to be shipped out to the banks and thence distributed to you who bought them. In the trunk and on the table in the picture there are about \$200,000,000 worth of bonds.

Some of the burden of distribution was lifted from the shoulders of the men in the photo in the Fourth Loan. The bonds were shipped to the banks in the Cincinnati and Pittsburgh territories from the branch banks in those cities. In the previous loans all were shipped direct from Cleveland.

In this same vault are handled all the certificates of indebtedness which are bought by banks in the interim between Liberty Bond issues and which are turned in in payment for bonds when the purchase is made.

In the Third Loan these men handled, checked and shipped two and a half million pieces and in the Fourth Loan they handled, checked and shipped four million.

News of Interest to Women

A very pleasant social affair of the past week was that given by Mrs. Ralph Saum, in honor of Mrs. Omar Seibert, of Jeffersonville. The guests numbered, Misses Ellen Irons, Mabel Caldwell, Ruth Johnson, Agatha Skinner, Marie Hennigan, Mable Dwyer and Mrs. Omar Seibert. — Greenfield Republican.

The Ladies' Club, of Bloomingburg, gave a delightful party Friday afternoon in compliment to Mrs. John Miller, (nee Mildred Parrett) at the country home of Mrs. John Rogers above Bloomingburg.

The beautiful new home, with its handsome furnishings provided attractive setting for the gathering of club women with a half a dozen additional guests, the popular young bride the central figure of the group.

Following the custom of giving the club brides a wedding gift, Mrs. Miller was presented with a set of sterling silver spoons.

The absence of her mother, Mrs. C. G. Parrett, an active member of the club, in the south, was much regretted.

A delicious luncheon was served, the honor guest and Mrs. Glenn Nisley, a bride of the summer, seated at the head of the center table. The central decoration was a magnificent golden candelabra, an heirloom in the Rogers' family, its branches holding yellow candles. Yellow candles also burned on the smaller tables and Fall flowers carried out the gold and white color scheme.

RED CROSS ACTIVITIES

To the Red Cross Chapter:— Instructions have been received from Washington prescribing:

First: That the making of surgical dressings must be stopped immediately.

Second: That chapters are to hold until further notice, their unfinished supplies of surgical dressings.

Chapters are assured that there are in the Red Cross storehouses in America and France, ample supplies of surgical dressings to meet all contingencies that may arise.

All other forms of chapter production activity must be continued. Calls from Red Cross Commissions in many parts of the world make known the unlimited need for civilian relief. The chapters therefore, should finish at once, uncompleted orders of garments for refugees, so as to be prepared to take care of additional orders. Work on refugee garments at this time is all emergency work and should be stimulated to utmost. The need for civilian relief for the winter is pressing and one garment now will be of infinitely greater service in saving a life than any garment in 3 or 4 months from now. Surgical dressings workers should be urged to enlist in the work of garment making. Chapter chairmen should hold meetings at once at their work rooms to explain the situation and organize this change in work.

Further instructions will follow as the situation develops.

Very truly yours,
B. P. Bourland,
Director, Department of Development. Surgical dressings committees will continue to work in its present quarters in the Y. M. C. A. on Wednesday and Friday afternoon, assisting in the work of the general work shop. Fayette county has a quota of 400 operating gowns to get out by December, and all surgical dressings workers are urged to assist in this most important work.

Remember the time, Wednesday and Friday afternoons, beginning on next week.

GEORGIA CULINARY ARTIST TEACHES FRENCH COOKS

French cooks in the employ of the American Red Cross are learning from Thomas Kane, a Georgia culinary artist how to make American pies, cakes and cookies for the American troops.

Pastry of any kind, good or bad, is a luxury in the army. Ginger cookies "like mother used to make," apple pies and cakes that "melted in the mouth" are spoken of with reverence among the doughboys. It is Kane's task to teach the French cooks how to supply these luxuries.

To each of the American Red Cross canteens, where the American soldiers resort for food, rest and entertainment, Kane goes for one month to spread gastronomical joy with lavish hand. He does not leave until the French civilian cook employed at the Red Cross has learned the culinary road to the soldier's heart.

Kane was once a chef on a transatlantic steamer. He had settled in Antwerp to live, but was driven out by the Germans and came to France and volunteered his services with the Red Cross to "help de wah."

RED CROSS MERCY RECLAIMS HOLY LAND In four months, the American Red Cross in Jerusalem has built up a vast hospital, a bacteriological laboratory, a children's hospital, a clinic and a dispensary.

It has established orphanages for boys and girls, a small school for the blind, a day nursery and a motor corps.

It maintains two large work-rooms where Russian pilgrim women, stranded in Jerusalem, support themselves by various industries. In several workshops it employs about 1,500 Moslem, Jewish and Christian women to make bedding, mattresses, clothing, baskets and embroideries.

A group of workers has been sent to Es-Salt, beyond the Jordan, to return with 5,000 refugees to whom the Red Cross has been ministering.

An innovation in Jerusalem is the Advisory Relief Council which represents all the relief organizations in the Jerusalem zone. The chairman is a member of the American Red Cross Relief Commission.

RED CROSS WORK AT CAMPS More than a quarter of a million of articles, classed as hospital supplies, were provided by the Department of Military Relief, Lake Division, American Red Cross, to Camps Sherman and Taylor and Fort Benjamin Harrison for use in the recent epidemic of influenza and pneumonia, according to a partial report just made by Edward B. No doubt there are other parties in the county who have purchased the first in stamps and whose names have not been reported. If you belong to this class, see that your name is reported to the County Chairman or your local Post Master in this county and it will be included in the list which is being prepared to be sent to State Headquarters.

In the future there will be two things which will be prized as an indication of the patriotism and loyalty of the household, the first will be the honorable discharge and the second the certificate of membership in the \$1,000 War Savings Club.

War Savings Stamps, or "Baby Bonds" are the best investment in the world today. They pay 4½ per cent interest and only run for a short time before due and payable in 1923. If you need the money at any time

you can cash them at your postoffice after giving ten days' notice. Even if you are compelled to cash them before they are due, Uncle Sam will pay you a trifle over three per cent for the use of your money.

As soon as the present drive is completed, it is the intention to publish a roster of the \$1,000 purchasers in Fayette County and everybody who is able should increase their holding to the limit, so we can finish our campaign for the year with a membership of 150 in the \$1,000 Club.

This is the only war activity which Fayette County has failed to complete and it is the intention of the War Council to finish our quota during this drive so that "Little Bristle" will be called 100 per cent patriotic.

Do not fail to report your names so you can be enrolled as a member of the club and receive your certificate of membership. * * * * *

FOOTBALLERS

By Associated Press Dispatch.
Columbus, O., November 16.—Ohio football players today centered at Urbana, Ill., where Ohio State University, for two years champion of the Western Conference, was to face the strong University of Illinois eleven.

Ohio's biggest game today was between Oberlin and Case at Oberlin. Other games are Marietta vs. University of Transylvania, at Marietta; Miami vs. Kenyon at Oxford; St. Marys vs. Washington at Dayton.

STILL AT WAR

By Associated Press Dispatch.
Washington, November 16.—While President Wilson himself had not had the matter brought to his attention today officials regarded it as entirely unlikely that a commission of Germans will be permitted to come to the United States at this time under any circumstances.

The latest note of foreign minister Solf addressed to Lansing asking President Wilson for permission to visit the United States to explain the food situation, had not been received at the State Department but the Associated Press announcement of its coming was read with interest.

It was pointed out that the United States and Germany are still at war, although the armistice has been signed and consequently it is regarded as inconceivable that any German delegation could come to America.

GOING FORWARD

(By Associated Press Dispatch.)
Paris, November 16.—(Havas Agency)—French and American troops continued to progress in their occupation of Alsace-Lorraine. Both forces continued their movement in the direction of Metz today according to the Temps.

PLANNING FOR MORE CHICKENS

The importance being attached to raising more chickens, both from the standpoint of making more money for the farmer and producing more choice meat to meet the ever-increasing demand, is indicated by the organization in Circleville of The Southern Ohio Hatchery Company, which will hatch from 25,000 to 50,000 chickens each season to be sold

to persons who would rather buy than at a moderate price than endeavor to hatch them.

The plan is somewhat similar to that instituted in this city some three years ago, by the C. H. Brownell & Sons Packing House, which installed a large number of incubators and has been hatching thousands of chicks to meet an ever-increasing demand among those who wish the chicks at a moderate price rather than endeavor to hatch them.

Each year the increased importance of more and more chickens is realized, and as a result more chickens are being raised than ever before, and prices of eggs and of the chickens themselves has been higher than at any previous time.

GERMANS URGING EARLY CONFERENCE ON PEACE TERMS

By Associated Press Dispatch.
Washington, November 16.—The new German government has sent a message to President Wilson appealing to him "in order to save the German people from perishing by starvation and anarchy," to send plenipotentiaries as quickly as possible to The Hague or some other city.

Secretary Lansing announced yesterday that he had acknowledged receipt of the message of Dr. Solf asking for the hastening of the peace convention in view of threatened famine in Germany and had requested that the Germans not confine their appeals to the United States alone but address them also to the allied governments.

The following message has been forwarded to Secretary of State Lansing from Berlin:

The German government and the German people have greatly taken cognizance of the fact that the president of the United States is ready to consider favorably the sending of food to Germany. Distress is urgent.

I believe I am not appealing in vain to the humanitarian feelings of the president. If I ask you to submit to him the request that, in order to save the German people from perishing from starvation and anarchy, he will, as quickly as possible, send to The Hague or some other place plenipotentiaries.

Developments in Europe, not only in the military way, but in the field

of international politics and the tendency of the revolutionary spirit manifested by the demoralized civilian population of the central empires to spread to neighboring states have influenced the allied and American governments to arrange for the meeting at an early date of the great peace congress.

FOR VALOR?

(Associated Press Correspondence.)
Amsterdam, November 16.—The Bolshevik government of Russia has instituted military order "for valor." It is a tiny red flag, and the person on who it is conferred is also given a certificate entitling him to wear it.

GOING UP!

(Associated Press Correspondence.)
London, November 12.—The cost of living is still rising and according to the Labor Gazette the retail prices of articles of food during September averaged 129 percent higher than July, 1914, or 13 percent increase compared with the previous month. The increase is due to the higher prices of meat, butter, milk and eggs.

SHALL WE UNVEIL THE TABLET

Never did this county fail to do its duty in the great war. Our Boys are still in Europe on the fighting front, and our citizens are meeting the calls made upon them. But there is one call that has not been met. We are still behind in our answer to the Government's demand for buyers of War Savings Stamps.

We Owe \$100,000

which we must raise in this fair county to unveil in its Court House the tablet that evidences a patriotic duty met in full. Can we afford to have it said all over Ohio that this county has failed? Can we hold up our heads with the rest of our citizens of the Buckeye Commonwealth if we do not supply our Government with the funds to complete the Victory work which the boys have so nobly won in the trenches?

THE TIME IS SHORT

We have but a limited time in which to answer. The money is in your pockets to meet the call. It is only a loan that is asked now. Better investment cannot be made, for you can get your money on ten days notice, and it is secured by all the vast resources of this country.

Therefore, our appeal to you is to do this big thing now—to place at the disposal of the Government freely what it must have to complete and make secure the victory of our armies.

It's a patriotic privilege, and one that will put our county
In the right light before the rest of the State.

THEN

Do It Now

Think of some article around the house you never use and are not likely to ever need again; some furniture or clothing you have put aside and is really a bother to have in the house. There is someone who could use these to advantage and would be willing to pay a good price if they only knew they were for sale. Insert a small For Sale ad in The Herald tomorrow and dispose of these articles; you can use the money to better advantage.

RODECKER'S NEWS STAND

UTTER RUIN MARKS ROUTE ALONG FRONT

Desolation and Destruction on Every Hand Where Americans Fought and Defeated the Enemy Where He made Strongest Effort Near Verdun

With the American Forces in France, November 1.—The country over which the Americans fought their way northwest from Verdun presents a picture of ruin, destruction and desolation. The villages are uninhabited and homes seem but sepulchres.

Torn by mines causing huge craters, gashed by bombardments which made hundreds of thousands of shell holes and strewn with broken or abandoned guns, wagons, heaps of ammunition, helmets and all the other debris of four years of desperate fighting, the whole route betrays the awful effects of war.

Everywhere, in every direction and protecting each slightest angle and nook, across the roads until torn away by shells or human hands, are countless strands of barbed wire, most of it rusted by the rains crazy topsy-turvy on its supporting stakes that have fallen to right and left. "It takes four years to win the war," said some casual visitor to the front, "it will take six years to roll up the barbed wire that has been used in winning it."

Take, for instance, the trip from ruined, desolate Avocourt northward to Malancourt and Montfaucon, the scene of some of the bitterest fighting of the entire war. Avocourt was in ruins before ever the American offensive started.

For a solid mile northward the road winds across foothills that once were covered with green trees, but now are shorn and bare. Gigantic mines have torn the road in twain and gouged out holes fifty and more feet deep, a hundred and more feet across, to get around or across which engineers have had to exercise their ingenuity and the surrounding country, stripped of its wood, has furnished the rock. Fortunately there is plenty of that.

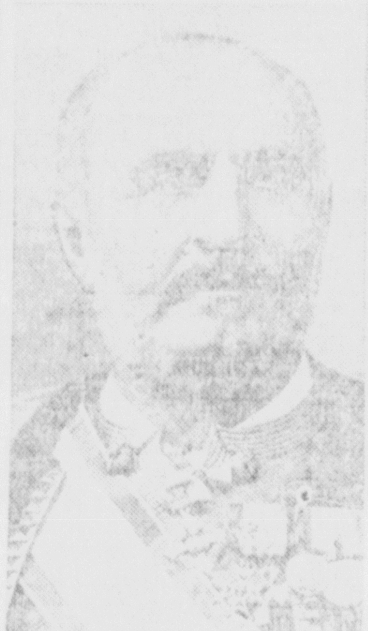

To either side of the road are the remains of what were once livable, comfortable dwellings and buildings, blown into thousands of pieces by discharge of explosives when the enemy retreated. Farther ahead and as far as the eye can reach across the low hills are hundreds and thousands of shell holes, there craters overlapping, big and little holes from missiles of every character, that have torn and scarred the earth almost beyond the hope of redemption.

Everywhere is the debris of the battlefield, guns, helmets, articles of clothing, piles and heaps of ammunition, broken-down and splintered wagons, caissons and trucks. And, if one goes over the scene soon enough, bodies awaiting burial.

The comparison between Malancourt and Avocourt is striking—because the former has suffered so much more. Buildings no longer have even a semblance of their former state. Where in Avocourt walls at least still stand here and there, in Malancourt everything has been razed as though with dynamite, and the crumbling remnants are set upon to rebuild the shattered roads and make them passable for the insatiable armies ahead that must have more and ever more ammunition, and food and supplies.

Neither Malancourt, nor Montfaucon, nor any one of a score of towns within the sector where the Americans operated has a single living inhabitant left. In every direction is a waste of craters and up-torn earth.

NICHOLAS TO RETURN TO MONTENEGRO

KING NICHOLAS

King Nicholas of Montenegro, who fled from his country when it was invaded and overrun by the Austrians in the winter of 1915-16 says, according to a dispatch from Paris, that he intends to return to his little kingdom as soon as it can be arranged. The King said that Montenegro looks to President Wilson to obtain for it a safe and independent future, and that he hoped Montenegro would become a part of the new state of Yugoslavia.

It is the quintessence of desolation and nothingness.

The once beautiful wooded slopes and hills are now torn and gashed. Great artillery bombardments have stripped hillsides of all but the stumps of their trees, which tower pathetically against the sky without branches or foliage, mere crippled relics of their former selves. Many of them have been shattered by shells as by lightning, others cut off as though by hanging wood choppers unable to fell a tree cleanly.

The reconstruction of Europe is admittedly going to be a long, hard task, far longer than the war that made it necessary. In time to come the meadows and valleys between Avocourt and Malancourt will be green again, and the trees of the Argonne Forest will grow up as they did before 1914. But as they all look now it seems very, very far in the future before the ruin, the utter destruction, can be made good and the former status of this portion of France restored.

The Ohio War Board Says Today

Thanksgiving this year will have a greater significance, perhaps, than since the days of the Puritans.

The American people are looking forward to a day in which to rejoice and be glad as well as to return an abundance of thanks for victory.

Then will begin the plans for the Americans and allies to co-operate in making available, as far as possible, food and other supplies necessary for the lives of the demoralized civilian populations in once enemy countries.

The supreme war council at Versailles has adopted a resolution announcing its desire to co-operate with Austria, Bulgaria and Turkey in furnishing the necessities of life for the suffering people of those nations.

If the food program is worked out as being planned almost twice as much food will have to be shipped this year as last.

So while the American people are giving thanks, they must take this as a fresh impetus to greater conservation until the demoralized nations are on their feet again.

CHRISTMAS GREETING CARDS

Should be selected early this year. Usual quality cards will be found at Rodecker's News Stand.
